

ON TIME

- Code: FTA 1007 051
- Description: Collection of Nomadic modules

DESCRIPTION

Mobile units manufactured in MFC 19 mm, soft castors. Top and side panels available in different finishes to create multiple choices of colours. Different models that combines different characteristics as follows

- 1 top drawer
- 1 lower filing drawer
- Key

- 1 Top open space
- 1 inner MFC shelf
- 1 mid drawer
- 1 lower filing drawer
- Key

- 1 top space with flip door
- 1 mid drawer
- 1 lower filing drawer
- Key and mail box

- 1 door
- 3 Inner MFC shelves
- 2 outer mobile shelves
- Key and mail box

- 2 doors with locker
- 2 inner metal shelves

SIZES

ON TIME 10

ON TIME 33

FINISHES - front and side panels

MFC (19 mm)

White Maple

(See finishes cards)

FINISHES - only side panels

MFC(19 mm)

Orange Green

■ FEATURES

Coat Hanger de Polypropylene (P.P). To hang accessories

Handle moulded Aluminium for an easy Move

Steel briefcase holder extruded Steel 5 mm thickness
(Optional)

Letter box available on selected models 26 cm width
and 2 cm high

Door Handle Aluminium and lock

Optional Pull-put Drawer

Drawers and filing drawer with mfc front panel and still
inner. Divider and pencil tray included

High quality castors (Lockable front castors de Ø 65 cm)

Optional Pull-put Drawer surface (PU integral):
anti-bacterial materials, non-skid and anti-static

MATERIALS

ON TIME has been designed to be manufactured with recycled materials 67,44%, danger substances such as chrome, mercury or cadmio are not used in big quantity. Recycable Aluminium, Steel or Woods 100%. Organic volatile Components. Packages manufactured with recycled carton. Ink thinner free.

PRODUCTION

Energy use is optimized during the production process. Minimum environmental impact. Last generation technological system in coating processes. Painting that have not been used is recovered to use it again. Zero COVs emissions and other contaminant gas. Close water circuit to clean the metals. Heat recovery. Automatic manufacture systems. Cut process is planned.

TRANSPORT

Optimum packaging to reduce space in transport and save energy.

USE

Long lasting use. Spare parts and replacements available. Easy to clean and maintenance.

DISPOSAL

95,43% recyclable. Easy and quick to split **ON TIME** components. Packages are reuse by our supplier to avoid waste generation. Carton used in packages is recyclable.

CERTIFICATES AND REFERENCES

The different programmes get points in different environmental categories to get the LEED certificate (sustainability, material and resources, water, energy and atmosphere, inner environment quality, innovation and design).

The mark of responsible forestry

PEFC Certificate

■ STANDARDS

ON TIME have passed all test done in our technological laboratory as well as the essays done in **(AIDIMA)** Furniture Technological Institute:

UNE EN ISO 14073. Office Furniture. Furniture Storage.

- **UNE-CEN/TR 14073-1:2005 IN.** Office Furniture. Furniture Storage. Part 1: Dimensions.

- **UNE-EN 14073-2:2005.** Office Furniture. Archive furniture. Part 2: Mechanical security requirements.

- **UNE-EN 14074:2005.** Office furniture. Office Desks and filing furniture. Essays to determine the resistance and lasting of the mobile parts.

■ ACCESSIBILITY

Comfortable and Open. We design furniture to solve all needs at any moment and perfectly integrated in any nowadays working spaces: more agile and comfortable, efficient and multipurpose.

These modules split working spaces providing confidentiality and privacy. An easy filing and storing solution for daily accessibility.

■ STRONG

Stable and Solid. Resistant furniture. Precisse finishes with delicate details. To get this, we have the most avant garde technology.

■ ECOLOGY

ENERGY SAVING

The new technological production system included, reduce the energy resources used to manufacture each component. Materials are very well used to avoid wastes.

RECYCLED AND RECYCABLE MATERIALS

ACTIU environmental policy opts to use recycled materials in those components where functionality and lasting is not a condition. Materials used in ON TIME such as Aluminium, Steel and Woods sare totally recyclable.

SUSTAINABLE CERTIFICATE

ACTIU has **PEFC y FSC**, certificate to proof that the wood used in our products comes from sustainable exploitations and **ECODESIGN ISO 14006** certificate.

■ REMARKABLE VALUES

1 – Legs covered with epoxy coating, bonding 2nd generation polymerized 200°C. Non-greasy treatments and nano-ceramics application to improve the coating so it becomes more resistance and long-lasting.

2 - Coating 80-90 micron thickness (it could be different as per the project requirements)

This covering guarantees the finish and maintenance of metal structures.**3** - Acabado superficial antibacterias opcional.

3 - Painting process:

Actiu painting plant has minimum environmental impact against the traditional industry processes.

Treatment is done by polarized coating and compacted with temperature.

We get homogeneous and regular application with 98% of painting and the remaining 2% is used to produce other paints. Paints used are COVs free (Volatile Organic Components) which are very dangerous for the environment.

All water used in the process is re-used, so we get zero dump.

The process is free in heavy metal, phosphate, organic components and DQD (Biochemical demand of Oxygen).

The necessary hydrogen to cut the metal is generated in the cutting plant just before use it:

Important energy saving

We do not transport or store gas.

4 - ACTIU has **PEFC y FSC**, certificate to proof that the wood used in our products comes from sustainable exploitations and **ECODESIGN ISO 14006** certificate.

5 - Castors included in the furniture
