

### ■ FRAME

- ① **Bottom, middle and top beam:** extruded aluminium 1,5mm, 40 x 60 mm profile. Epoxy finish. Moulded aluminium arms to fix shelves and worktops.
- ② **Legs:** Extruded aluminium legs. Epoxy finish silver (2 mm thickness). Two heights: 107 cm for high reception modules and 73cm for attending area modules for disable people.
- ③ **Feet:** Moulded aluminium feet. Epoxy finish. Silver. Each foot includes two levellers with anti-skid pad of Polyethylene (PE).

### ■ INFORMA ACCESSORIES

**Cable management:**  
Informa includes ABS silver cable channels fixed to the beams to get comfortable and correct cable management. Dark grey finished.

**Foot rest:**  
Foot rest included with the lower beams to provide extra comfort and protection for the metal beam.

**End Panels: (optional)**  
Informa includes end panels to avoid seeing what there is inside the counter, legs, cables...

### ■ SURFACES FINISHES

#### Melamine (25 mm)

(see finishes card)

#### Glass (only for top counters)

### ■ FRONT FINISHES

#### Steel Panel (1,5 mm)

(see finishes card)

#### Methacrylate (6 mm)

#### Plywood (10 mm)

25 mm MFC panels worktops. Available in White or maple. Different shapes: Curve or rectangular

Front panel is available in different finishes

Extruded aluminium leg. Epoxy finish. Silver

Aluminium beam to link counters with 3 mm thick

Aluminium feet with levellers

■ **ESTRUCTURA**

- ① **Bottom and top beam:** extruded aluminium 1,5 mm, 40 x 60 mm profile. Epoxy finish. Moulded aluminium arms to fix shelves and worktops.
- ② **Legs:** 73 cm. Extruded aluminium legs. Epoxy finish silver (2 mm thickness).
- ③ **Feet:** Moulded aluminium feet. Epoxy finish. Silver. Each foot includes two levellers with anti-skid pad of Polyethylene (PE).

■ **FRONT FINISHES**

Steel Panel (1,5 mm)

White Burgundy Silver  
(see finishes card)

**MATERIALS**

**INFORMA** has been designed to be manufactured with recycled materials 62,37%, danger substances such as chrome, mercury or cadmium are not used in big quantity. Recyclables Aluminium, Steel or Woods 100%. Organic volatile Components. Packages manufactured with recycled carton. Ink thinner free.

**PRODUCTION**

Energy use is optimized during the production process. Minimum environmental impact. Last generation technological system in coating processes. Painting that have not been used is recovered to use it again. Zero COVs emissions and other contaminant gas. Close water circuit to clean the metals. Heat recovery. Automatic manufacture systems. Cut process is planned.

**TRANSPORT**

Optimum packaging to reduce space in transport and save energy.

**USE**

Long lasting use. Spare parts and replacements available. Easy to clean and maintenance.

**DISPOSAL**

98,12% recyclable. Easy and quick to split **INFORMA** components. Packages are reuse by our supplier to avoid waste generation. Carton used in packages is recyclable.

**CERTIFICATES AND REFERENCES**

The different programmes get points in different environmental categories to get the LEED certificate (sustainability, material and resources, water, energy and atmosphere, inner environment quality, innovation and design).

**ACTIU TECHNOLOGICAL PARK**  
project certified as **LEED® GOLD**  
by U.S. Green Building Council 2011  
Leadership in Energy & Environmental Design

**■ ERGONOMICS**

**INFORMA** is available for all type of users. Perfect for any need and keep user's posture in a natural way without any manual adjustment.

**■ ECOLOGY****ENERGY SAVING**

The new technological production system included, reduce the energy resources used to manufacture each component. Materials are very well used to avoid wastes.

**RECYCLED AND RECYCABLE MATERIALS**

ACTIU environmental policy opts to use recycled materials in those components where functionality and lasting is not a condition. Materials used in **INFORMA** such as Aluminium, Steel or Wood are totally recyclable.

**SUSTAINABLE CERTIFICATE**

ACTIU has **PEFC and FSC** certificate to proof that the wood used in our products comes from sustainable exploitations and **ECODESIGN ISO 14006** certificate.

## ■ REMARKABLE VALUES

**1** – Electrostatic coat, epoxy bonding 2nd generation. Polymerized 200°C with nano-ceramics and non-grease treatments to improve better covering and provide then better resistance and lasting.

**2** – Coating 80-90 micron thickness (it could be different as per the project requirements).

This covering guarantees the finish and maintenance of metal structures.

**3** – Painting process:

Actiu painting plant has minimum environmental impact against the traditional industry processes.

Treatment is done by polarized coating and compacted with temperature. We get homogeneous and regular application with 98% of painting and the remaining 2% is used to produce other paints. Paints used are COVs free (Volatile Organic Components) which are very dangerous for the environment. All water used in the process is re-used, so we get zero dump. The process is free in heavy metal, phosphate, organic components and DQD (Biochemical demand of Oxygen). The program gives us an exact control of thickness, so it provides us with standard thickness (80-90 micron).

**4** – ACTIU has **PEFC and FSC** certificate to proof that the wood used in our products comes from sustainable exploitations and **ECODESIGN ISO 14006** certificate.
